5	I joined BPW to meet other professional women on both a personal level and for networking. I also attended a few lunches and loved the programs! I continue to be pleased with the lunch programs! The socials are hard to do any networking at as they seem to be at restaurants with everyone already sitting in specific spots. Therefore, when I attend I usually only get to talk to the one or two people right next to me. I feel it would be better if we could mingle more or have an activity to make others get to know each other.	Sep 24, 2009 9:08 PM
